Dear Mr. Elder:

Re: Variance Request 7-I-18-VA

We have reviewed our records and find that we have existing utility facilities located on or near the above referenced property. The approximate location of these facilities is indicated on the enclosed print. However, KUB does not release and hereby retains all easements and rights for existing facilities, whether or not shown on these prints.

Should the variance be granted, KUB will require the following permanent utility easements for its facilities.

Underground Electric – 7.5 feet on each side of the centerline of the electric line, 15 feet total width

So long as these conditions are met, KUB has no objection to the granting of this variance. If you have any questions regarding this matter, please call me at (865) 558-2483.

Sincerely,

Subject: RE: City of Knoxville - Board of Zoning Appeals Applications

Dear Ms. LeClair:

Please see the following comments for the proposed developments. Most of the concerns should be addressed in grading/drainage permits:

- **7L18VA** Although drainage is a responsibility of the City of Knoxville since they are an organized municipality, the catch basins at this property are a frequent issue for maintenance (sinkholes and flooding). The variance requested is currently for Rennoc, but the property owner is showing a change to access on Broadway. We will review drainage via the traffic office as a commercial entrance permit when submitted.

- **7M18VA** The request is to change the size of signage on private property along Kingston Pike. Highway Beautification was already aware of the signage changes (phone call with Gregory Peck on 7/17). This property maintains a large amount of controlled access. As the developer requests a commercial entrance permit/grading or drainage permit, TDOT will need to ensure that control access is maintained.

- **7I18VA** This property maintains a large amount of controlled access. As the developer requests a commercial entrance permit/grading or drainage permit, TDOT will need to ensure that control access is maintained. It appears the developer is utilizing an adjoining property’s driveway for access.

Please let me know if you have additional questions.

Thank you,

![TN TDOT Department of Transportation]
