Project Description: This project will rehabilitate approximately 2000 linear feet of stormwater drainage pipe at various locations in the City using the cured-in-place pipe method. The pipe segments in this project have been deemed in 'poor' condition by the Engineering Department and given a high priority to rehabilitate or replace to prevent more serious problems from further degradation or total pipe failure.

Locations include:
- Approximately 192 along N Central Street near from E Fourth Avenue
- Approximately 334 feet along Fern Street near Catalpa Avenue
- Approximately 314 feet along Gratz Street near Lovenia Avenue
- Approximately 121 feet along Summer Place near Locust Street
- Approximately 215 feet along Washington Avenue near N Olive Street
- Approximately 907 feet at Worlds Fair Park along Worlds Fair Park Drive

Schedule:
Bid Opening: February 11, 2021
Notice to Proceed: TBD
Contract Completion Date: TBD

Current Contract Price: $668,938

Engineering Department March 2021 Status: This construction contract was approved at the March 9, 2021 City Council Meeting.
