The Old North Knoxville Neighborhood Association will host a potluck on Thursday, June 26, beginning at 6 p.m., at First Creek, 1240 Cottage Place. The rain date will be Friday, June 27, same place and time.

The potluck will celebrate the recent beautification of First Creek. The neighborhood would like to thank Sheryl Ely, City of Knoxville Director of Parks and Recreation, and Margareth Olsson, an Old North resident.

All are welcome to attend. Please bring a potluck dish and an acoustic musical instrument if you play one! The organization will provide water and utensils. There will also be juice boxes and hot dogs for children.

To RSVP or for more information, visit the Old North Facebook page.

2. Fourth and Gill Awards Summer Golden Shovel Award

The Historic Fourth and Gill Neighborhood Organization “Gillbillies” take neighborhood beautification VERY seriously.

With a neighborhood collective called the “Fourth and Gill Wooly Bears,” they have many neighbors dedicated to historic preservation, natural beautification, and master gardening.
Each quarter, the Gillbillies host a Golden Shovel Award, passing on an ornate golden shovel to the neighbor with the most beautiful yard. Neighbors have the opportunity to nominate and vote for their favorite yard, and this spring the competition was fierce!

For the Spring 2019 Golden Shovel, the award went to Melynda Whetzel on Luttrell St! The Summer nominations are going in now! Check out the Fourth and Gill Neighborhood website to see who the lucky winner will be!

3. Office of Neighborhood Recognizes “Best Practices”

Have you ever wondered how a group is verified as an actual neighborhood organization? Many have. It is especially important to know if a group follows best practices and represents the citizens of the neighborhood. This information is important when communicating with the City of Knoxville, City Council, Knoxville-Knox County Planning, and official organizations.

In order to evaluate neighborhood organizations on their development, the Office of Neighborhoods will begin requesting items for new designations for every neighborhood organization beginning July 2019. These designations recognize that organizations change and grow and the stages reflect the group’s growth.

Going forward, neighborhood organizations will be categorized as a Start-Up, an Informal, an Organized, a Proactive, an Outstanding, or an Exemplary Group. Details on how to achieve these will be coming soon.

Neighborhood Organizations will provide documentation to the Office of Neighborhoods, demonstrating their processes and organizational style. The designation process will allow neighborhood organizations to benefit from various City programs in different ways, depending on their needs.

Some of the information that will be requested will include:

- Most recent copy of the neighborhoods’ bylaws.
- Election process and updates for officers, including the new members’ names and contact information.
- Documentation of voting and associated notice. (For example, if you want your neighborhood to vote on an issue; did you notify the entire neighborhood of a meeting with a flyer, have the meeting, and then cast votes? If so, we want to see the flyer and meeting minutes.)
- Documentation of how a group votes or achieves consensus when supporting or opposing an issue in front of City Council or other groups. (For instance, did your board give permission to speak in front of City Council, or did your entire membership give permission; and how were each notified there would be a vote?)

The OON Newsletter will provide additional information such as next steps and links to forms to provide information. Organizations will have six months to provide information before designations are made. The designation will change with time as organizations change. Organizations will be re-evaluated once a year or as paperwork is handed in.
This process is meant to encourage best practices and provide clarity for organizations. This is a new process and is meant to be fluid to provide opportunities for neighborhood organizations to improve on their time.
