The slope along the southwestern side of Third Creek Road from this area to Hinton Drive further southeast (refer to Corridor B Key Plan for location of Hinton Drive) is extremely steep. There is minimal shoulder along either side of Third Creek Road in this area and the slope is near vertical into Third Creek in several areas.

Third Creek and potential fringe wetlands on both sides of the creek. Impacts to Third Creek and/or wetlands will require TDEC / USACE / TVA permitting. Potential habitat exists for threatened and endangered bat species of concern identified by USFWS.
