KAFCC
Paper Bag Stars

Materials

- 9 paper lunch bags
- Crayons, pencils, or paints (whatever you have to decorate your bags!)
- Glue stick
- Scissors
- String
Instructions

1. Start by decorating your paper bags. Draw or paint on both sides of all 9 bags.

2. Once you have decorated each bag and they are dry, use your glue stick to glue and upside-down ‘T’ on one of the bags. Glue along the bottom of the bag, and straight up the middle. Try to keep the lines of glue narrow.

3. Place another bag directly on top of the glued bag. Line up the edges neatly and press down to help the bags stick together.
4. Once all 9 bags have been glued together, cut a point at the top end of the bags using scissors.

5. Glue one more upside-down 'T' on the top bag.

6. Put your hands into each outer bag and fan open the star. Press each outer edge together and hold until the glue dries. Be patient!

7. Punch a hole in the top of the star and thread through string so you can hang it up! And you’re done!
