KAFCC WOVEN SUNFLOWERS

1. To begin! Take a piece of yarn (start with roughly one yard) and tie one end to the center of your sunflower.

2. Next, start weaving the yarn over and under each of the strips of yellow yarn coming from the center of the flower.

3. Once you get to the end of this first piece of yarn, choose a new color and tie it to the old yarn. Continue weaving.

4. Tuck any loose tie ends in behind the rest of the yarn to hide them.

5. Keep going over and under, over and under. Push the yarn to the center as you go!

6. Once you’ve gone as far as you can, tuck the end of the last piece of yarn under and you’re done! Happy spring!
