Decision of the Building Official
The owner of a building or structure, or his duly authorized agent, may appeal a decision of the Building Official to the Board whenever any one of the following conditions are claimed to exist:

1. The Building Official rejected or refused to approve the mode or manner of construction proposed to be followed or materials to be used in the installation or alteration of a service system.

2. The provisions of this Code do not apply to this specific case.

3. That an equally good or more desirable form of installation can be employed in any specific case.

4. The true intent and meaning of this Code or any of the regulations thereunder have been misconstrued or incorrectly interpreted.

Appeal of Building Official’s Decision
An application for appeal shall be in writing and filed with the Bureau within thirty (30) calendar days from the date the decision is rendered by the Building Official. Appeals shall be on a form provided by the Building Official. A fee shall accompany such application for appeal. A separate application for appeal shall be filed for each different address/tenant space. Application for appeal must be filed ten (10) days prior to the quarterly meeting date. In the case of an electrical system which, in the opinion of the Building Official, is unsafe, or dangerous, the Building Official may, in his order, limit the time for such appeals to a shorter period.
Variances
The Board, when so appealed to and after a hearing, may vary the application of any provision of this Code to any particular case when, in its opinion, the enforcement thereof would do manifest injustice and would be contrary to the spirit and purpose of this Code or public interest, and also finds all of the following:

1. That special conditions and circumstances exist which are peculiar to the service system involved and which are not applicable to others.
2. That the special conditions and circumstances do not result from the action or inaction of the applicant.
3. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Code to other service systems.
4. That the variance granted is the minimum variance that will make possible the reasonable use of the service system.
5. That the granting of the variance will be in harmony with the general intent and purpose of this Code and will not be detrimental to the public health, safety and general welfare.

Conditions of the Variance
In granting the variance, the Board may prescribe a reasonable time limit within which the action for which the variance is required shall be commenced or completed or both. In addition, the board may prescribe appropriate conditions and safeguards in conformity with this Code. Violation of the conditions of a variance shall be deemed a violation of this Code.

Decisions
The Board shall, in every case, reach a decision without unreasonable or unnecessary delay. Each decision of the Board shall also include the reasons for the decision. If a decision of the Board reverses or modifies a refusal, order, or disallowance of the Building Official or varies the application of any provision of this Code, the Building Official shall immediately take action in accordance with such decision. Every decision shall be promptly filed in writing in the office of the Building Official and shall be open to public inspection. A certified copy of the decision shall be sent by mail or otherwise to the appellant and a copy shall be kept publicly posted in the office of the Building Official for two weeks after filing. Every decision of the Board shall be final, subject however to such remedy as any aggrieved party might have at law or in equity.
