Re: Route System Guidelines
Date: September 18, 2009

As a result of the workshop on September 17, 2009, a draft set of route system guidelines is presented for the board's consideration.

The purpose of the guidelines is to create a common vision and direction for the KAT staff and the board for upcoming and ongoing route changes. The guidelines seek to balance customer convenience, system efficiencies, and ease of use within the given budget constraints.

Based on discussions in the workshop, the guidelines have been revised and are attached for your review.
