

CITY OF KNOXVILLE
BILL HASLAM, MAYOR

Dear Fellow Knoxville Neighbor:

We have created a place on the City's website dedicated to the City of Knoxville's efforts in controlling speeders in our neighborhoods. You can get there by going to www.cityofknoxville.org and clicking on the Neighborhood Traffic Safety logo in the column on the right.

At this site, you will find lots of information including a Neighborhood Traffic Safety newsletter that details the three Es – education, enforcement and engineering - and information on how your neighborhood can apply for signs and other physical devices to slow down traffic.

We're continuing to work on this problem, and we'll update this site with news and information. Feel free to share this content with members of your group. If you have any questions, please call the City by dialing 3-1-1, and we'll get you the answers.

Thank you for your efforts in making Knoxville's neighborhoods stronger and safer.

Sincerely,

Bill Haslam
